DETAILED ACTION

1. This office action is in response to the amendment filed on December 30, 2005. Claims 1, 12, 14, and 18 have been amended. Claim 5 has been canceled. Therefore, claims 1-4 and 6-20 are presented for further examination.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 30, 2005 has been entered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-4, 6-11, and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2151

5. With respect to claim 1, the phrase, “a computer program comprising: a first email ...; and a second email ...,” (emphasis added) renders the claim indefinite because a computer program has to have instructions to be executed by a processor.

6. Claims 2-4, 6-11, and 18 are also rejected under 35 U.S.C. 112, second paragraph because it depends on claim 1.

Claim Rejections - 35 USC § 101

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claims 1-4, 6-11, 14-18, and 29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-4, 6-11, 14-18, and 29 are directly and/or indirectly to a computer program and/or a computer software application. According to “Patent Eligibility Guidelines 35 USC 101”, pages 50-51, and according to MPEP 2106 page 2100-2012, a computer program is directed to non-statutory subject matter.

Response to Arguments

9. Applicant's arguments filed December 30, 2005 have been fully considered but they are not persuasive because of the following: Claims 1-4, 6-11, 14-18, and 29 are directly and/or indirectly to a computer program and/or a computer software application. According to “Patent Eligibility Guidelines 35 USC 101”, pages 50-51, and according to

Art Unit: 2151

MPEP 2106 page 2100-2012, a computer program is directed to non-statutory subject matter.

Allowable Subject Matter

10. Claims 12-13 and 19 are allowed.

11. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks filed on September 28, 2005 with respect to the amended claim limitations point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

Conclusion

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nghi V. Tran whose telephone number is (571) 272-4067. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung can be reached on (571) 272-3939. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
